Plan to post statement on Federal Records Act

Below is a proposed plan to post a statement (to Archives.gov) regarding the NARA role in preserving federal records and the guidance provided to federal agencies, especially with regard to public websites and social media. The short statement will be posted to the website. The attached Trending Topic Document is a backgrounder for NARA use in responding to media and public queries. **We would like to post the statement early next week.** Please review and send back any necessary changes. Thank you!

Review note: Laurence Brewer wrote the language. A plan for placement on Archives.gov is complete. Links within the statement will point to previously published guidance already on Archives.gov.
